

Motivity® is mission-driven.

We are **work strategists** who understand the contributions and work styles of all generations collaborating in today's work place.

Motivity, Inc.
723A Allendale Street
Santa Fe, NM 87505
505 982 0958

We **believe in change** and the power of moving people forward through innovative, integrative, and whole-person thinking — a cradle-to-cradle philosophy, applied to **make a difference** in our everyday lives.

www.motivity.com

Our work is about **reworking the way we work** — the way we hire or present talent, the way we manage or not, the way we get things done, and how we use our precious resources — our bodies, minds and spirits.

We **challenge traditional models** to lead workers and organizations into the future. We are **inspired by nature** and use it as a model for changing the way we work and prosper.

Values

- **Commit** — to deliver the highest quality services and tools our that clients want and use every day.
- **Restore** — to embrace expansion in proper sequence, a form of organic and economic growth that respects individual and team movement potential.
- **Innovate** — to provide leading-edge, outside-the-box, creative resources that are inspiring and fun to use.
- **Learn** — to be patient with the unfolding process of change, both with ourselves and our clients as transitions are messy, invigorating and at times, scary.
- **Prosper** — to support the creation of prosperous and healthy work for all generations, present and future.
